KEEP EXPANDING. KEEP GROWING

GROWING OUR CAPACITY TO SERVE YOU BETTER

FIRST WAREHOUSE

Where it all began.
Our first warehouse laid the foundation
for our growth and commitment to
our customers.

SECOND WAREHOUSE

IN PROGRESS

Our new addition.
More space, more capability and
more ways to support your growing
needs.

We are committed to continuous growth and improvement in everything we do. As our business and customer needs evolve, we keep investing in our infrastructure, technology, and people to deliver greater value.

The addition of our second warehouse marks another important step in our journey. With increased capacity and improved facilities, we can serve you more efficiently, maintain higher inventory levels and respond faster to your needs.

Thank you for being part of our growth. We look forward to achieving even more together.

Silkscreen Printing is a stenciling method that involves printing ink through stencils that are supported by a porous fabric mesh stretched across a frame called a screen.

Pad printing is a printing method that allows the transfer of an image onto a 3D object. It's a commonly used decoration technique as it can be printed on all kinds of shapes and textures.

Engraving is the practice of incising a design onto a hard, usually flat surface. This method can be used on glass, metal & wood.

Epoxy resins are low molecular weight pre-polymers or higher molecular weight polymers which normally contain at least two epoxide groups. The epoxide group is also sometimes referred to as a glycidyl or oxirane group.

Deboss It is a process whereby heat & pressure is being applied. This method can be used on real / artificial leather products.

Heat presses are often used to apply designs to fabrics, specially designed presses can also be used to imprint designs on mugs, plates, jigsaw puzzles, caps, and other products.

Embroidery is the handicraft of decorating fabric or other materials with needle and thread or yarn. Embroidery may also incorporate other materials such as, pearls, beads, quills, and sequins. Today, embroidery is most often seen on caps, hats, coats, blankets, dress shirts, denim, stockings, and golf shirts. Embroidery is available with a wide variety of thread or yarn color.

Roll printing gives high quality, long-lasting results for single and multi-colour decoration on cylindrical surfaces. Inks are pressed through mesh stencils to produce clear, sharp images that are ideal for logos and text.

FC 605 Multifunctional Coaster

Can be used as soap mat or cup coaster, especially to hold cold/iced cup, as it catches the condensed water droplets and can instantly absorb the moisture, avoiding any water marks on your table surface, or even act as your wardrobe air purifier, absorbing moist and damp air, keeping your wardrobe dry and fresh all day.
